

17 Adar, 5780
3/13/20

Dear Chabad family,

After careful consideration and consultations with Rabbonim and Health Professionals we have decided to suspend all services until further notice.

We urge everyone to follow the CDC guidelines. G-d willing this will help slow the spread of the virus.

This has been a very tough decision, but now that it's done, let's making the best of the situation.

Here are some ideas and suggestions: www.chabadwestorange.com/coronavirus

We are being tested as a community like never before. There a lot of different opinions about if the rabbis are correct or incorrect. Let's unite and be unified in serving Hashem increasing in our Achdus and Ahavas Yisroel!

We all have a unique opportunity to have a truly special shabbos filled with ruach and davening and learning with our own families. And even if we live alone, a time to connect in a most intimate way, with our creator. Let's make this Shabbos the most special Shabbos ever!

We are still in the month of Adar, so let's increase our joy, our learning, our davening, our chesed and our love for one another, and may Hashem respond in kind and send us Moshiach and the end to this dark, painful and confusing galus.

On a personal note, if you need to talk, I am here for you. Call me.

May we all have a peaceful, safe and healthy Shabbos!

Sincerely,

Rabbi Mendy Kasowitz, Director
Altie Kasowitz, Co-Director
Paul Feinberg, President
Chaim Massoth, VP
